CalTime Log In

Once you have downloaded and double-clicked on your RDP CalTime Access icon, you will see a log in screen:

Type your CalNet username (where it calls for a User Name) and passphrase (where it requests a Password), and press the Enter key or click the right-pointing arrow “Go” button.

Caltime will open to the QUICKFIND window when a timekeeper logs in.
The **QUICKFIND** window (*and other Genies*) contains several elements of note:

1. **CalTime Banner** contains the **Section Tabs** and **Utility links**.
2. **Section tabs** head the **GENERAL, MY GENIES, SCHEDULING, MY INFORMATION**, and **MY LINKS** drop-list menus.
   - All the public and personal genies available to a timekeeper will appear here under the **MY GENIES** drop list.
3. **Utility links** allow for **Log Off** and access to the **SETUP** screen.
4. **QuickLinks** are the gateways to employee timecards, schedules, people attributes, and reports.
   - **Timecard** permits you to view, print, approve, and modify the contents of employee timecards.
   - **Schedule** lets timekeepers, supervisors, and schedulers view and modify employee schedules.
   - **People** gives you access to employees’ custom fields, primary account, and other employee conditions.
   - **Reports** will link you to the page from which you may choose one of several reports to generate. The reports can be based on selected employees or all employees.
5. The **Actions menu** allows for various actions on employee timecards and contains additional navigation links to CalTime’s **People and Reports** sections.
Section Tabs

- **GENERAL**
  - Group Edit Results
  - Reports

  Reviews results of any group edit a timekeeper performs
  Displays the CalTime Reports window

- **MY GENIES®**
  - QuickFind
  - Non-Exempt Pay Period Close
  - Timecard Exceptions
  - Worked Accounts
  - Exempt Pay Period Close
  - Custom Fields Summary
  - Accrual Leave Balances

  Quickly navigate to one or more employees
  Displays all data relevant to Non-Exempt close of pay period
  Shows missed punches, holidays, missed shifts (when schedules are applied), and early and late In- and Out-punches (when schedules are applied)
  Displays total hours worked per job
  Includes all data relevant to Exempt close of pay period
  Shows current custom field settings for employees
  Reports accrued leave balances for selected employees
Navigating RDP CalTime

- Timekeeper:
  Allows you to apply, modify, or delete schedules for employees
  (only available to system administrators)

- Scheduling
  Provides access to your own timecard
  Provides access to your accrual balances, schedule, and time detail reports

- My Information
  Displays a list of useful job aids
What, Who, and When

Timekeepers usually navigate to a specific group timecard view in order to perform their tasks. To get to a specific group timecard view, make the following three choices (in the order in which they are listed): Genie, HyperFind, and Time Period.

Genies provide the WHAT, specific columns of data (as displayed below), e.g., employee number, employee name, employee approval . . .

Show gives access to HyperFinds, which give the WHO, specific rows of employee records.

Time Period gives the WHEN, the date range to be viewed, e.g., Previous Pay Period, Current Pay Period . . .

The list to the left shows the CalTime Genies available to timekeepers and supervisors. This list is followed by a brief description and image of each of the Genies . . .

QuickFind

Previously explored in this handout (see pages 2–4), QuickFind locates one or more employees, such as someone with a specific last name or ID number, or anyone whose last name begins with a given letter. QuickFind’s Show text cell is not case-sensitive.
Timekeeper: Navigating RDP CalTime

<table>
<thead>
<tr>
<th>Wildcard Character</th>
<th>Description</th>
<th>Example</th>
</tr>
</thead>
</table>
| *                  | An asterisk represents one or more letter characters | b* finds all employees with a last name beginning with “B”.
|                    |             | *C* finds all employees whose first name begins with the letter C. |
|                    |             | Search criteria are not case sensitive, so you don’t have to type uppercase letters for the first letter of a name. |
| %                  | A percent symbol indicates one or more numerals. | %1 finds all employees whose ID number ends with the number 1 |
|                    |             | *bay* and *Bay* will produce the same search results. |

Below you see the QuickFind search results for a last name beginning with “a”, in the **Current Pay Period**. Note that it shows the found employee’s name, ID, and primary labor account. From here, a timekeeper or supervisor could double-click on the employee’s name to gain access to the employee’s timecard.

![QuickFind search results](image)

**Non-Exempt Pay Period Close**

This Genie is used at the end of a pay period to review and sign-off timecards for those employees with an FLSA status of **Non-Exempt**. Below, you can see that it contains all the relevant data for review and approval, such as whether or not an employee has approved the timecard, whether or not a supervisor has approved (and which supervisor), missed punches, regular hours worked, comp time/overtime, vacation leave taken, and so forth. Double-click on any employee’s name to view his/her timecard.

All columns are sortable by clicking on the column head. All columns are resizable by clicking on the right border and dragging.
Timecard Exceptions

This Genie is used daily during the pay period to review timecards. Note the columns for Missed Punch, Unexcused Absence (with schedules applied), and early and late In and Out punches (with schedules applied). Double-click on any employee’s name to view his/her timecard.

All columns are sortable by clicking on the column head. All columns are resizable by clicking on the right border and dragging.
Worked Accounts

This Genie is used at any time to review hours worked for different jobs.

Both columns are sortable by clicking on the column head. Both columns are resizable by clicking on the right border and dragging.

Exempt Pay Period Close

This Genie is used at the end of a pay period to review and approve timecards for those employees with an FLSA status of *Exempt*. Below, you can see that it contains all the relevant data for review and approval, such as whether or not an employee has approved the timecard, whether or not a supervisor has approved (and which supervisor), vacation leave taken, and so forth. Double-click on any employee’s name to view his/her timecard.

All columns are sortable by clicking on the column head. All columns are resizable by clicking on the right border and dragging.
Custom Fields Summary

This Genie is used to display a *non-exempt* employee’s pay rule, appointment type, home department, job home department, compensatory time election, meal length, shift length, and shift occurrence. Both timekeepers and supervisors can consult it for this range of information. (Timekeepers can *change* custom field data from the Setup menu—*see page 15.*) Double-click on any employee’s name to view his/her timecard. It defaults to *Today*, so you are viewing your employees’ current statuses.

All columns are sortable by clicking on the column head. All columns are resizable by clicking on the right border and dragging.

Anatomy of a Pay Rule

- **Union Code**
- **FLSA Status**
- **CTP=Comp Time Premium**
- **OTP=Overtime Premium**
- **CTD=Comp Time Double**
- **OTD=Overtime Double**
- **CT2=Comp Time 2 Bucket**
- **Meal Deduction:** 30, 60, or 00
- **Shift Type:** Day, Eve, Night, Weekend
  - May include 08, 109, or 12 for shift length.
- **If employee is eligible for Meal Perquisite**

Use this field to build HyperFinds.
Accrual Leave Balances

This Genie is used to display an employee’s accrual leave balances. Both timekeepers and supervisors can consult it for this information. Double-click on any employee’s name to view his/her timecard.

All columns are sortable by clicking on the column head. All columns are resizable by clicking on the right border and dragging.
WHO (hyperfinds)

The list to the left shows the public and personal HyperFinds in the Show drop menu available to timekeepers and supervisors.

- **All Exempt Home** and **All Non-Exempt Home** show specific groups by FLSA status.
- **All Exempt and Non-Exempt Home and Transferred In** shows a specific group by FLSA status and includes employees who have charged time to the groups accounts.
- **All Home** shows all employees assigned to the timekeeper.
- **Public Hyperfnds will appear in bold type.** Personal HyperFinds will appear in regular type. Only timekeepers and system administrators can create personal HyperFinds. They can be assigned to timekeepers and supervisors.

WHEN (time period)

To the left is a list of Time Periods typically available to a Timekeeper. The most commonly selected are:

- **Previous Pay Period** displays the previous biweekly pay period for non-exempt employees and the previous month for exempt employees.
- **Current Pay Period** displays the current bi-weekly pay period for non-exempt employees and the current month for exempt employees.
- **Next Pay Period** will display the appropriate next biweekly or month pay period
- The bottom section of the window allows the Timekeeper to enter a **Specific Date** or **Range of Dates** to be retrieved.
The Action Menu

All Genies except Work Accounts have an Action menu comprised of the same items:

- **Actions**: From this sub-menu, you can select all employees, print the Genie contents, and export the Genie contents to Microsoft Excel or CSV-formatted file.

- **Punch**: You can add or delete a punch for a selected In- or Out-punch text cell.

- **Schedule**: You can create and apply a schedule pattern for a selected employee.

- **Approval**: Supervisors can approve a selected employee’s timecard or remove approval. Timekeepers can sign off a timecard.

- **Person**: You can edit the Person information for a selected employee.

Below you see the Action menu as it appears in the Timecard Exceptions Genie:
**People Editor (QuickLinks menu)**

The People submenu provides access to two areas of importance for timekeepers: Person data and Job Assignment data. From any Genie, click on People to access the People Editor dialog windows.

Below you see the two tabs available in PEOPLE EDITOR, Person and Job Assignment:
Setup (Utility Links menu)

The Setup submenu provides access to three areas of importance for timekeepers: HyperFind Queries, Query Manager, and Labor Level Sets:

**HYPERFIND QUERIES**

From this dialog window, timekeepers can search for, create, duplicate, edit, change properties of, delete, and print HyperFind queries.
QUERY MANAGER

From this dialog window, timekeepers can find, duplicate, view, assign, delete, and print existing HyperFind queries.

LABOR LEVEL SETS

From this dialog window, timekeepers can find, create, duplicate, edit, rename, delete, and print labor level sets. *(System administrators modify labor level sets.)*
